Product Description

Product Description

Popular fashion customized zebra blinds double layer day night wholesale cordless with smart control motor zebra blinds

Types of zebra curtains

According to the different shading effects of the fabric, it can be divided into semi shading zebra curtain, imitation hemp zebra curtain and full shading zebra curtain. The shading effect is from low to high.

Semi blackout zebra curtain, one of the most common zebra curtain styles, is woven with polyester fabric, which has good light transmission and air permeability, and can be widely used in offices, cafes, homes and other places.

The linen like zebra curtain is made of linen like fabric, and the shading effect is better than the semi shading zebra curtain, which can reach about 75%. The fabric is simple and natural, which is a good choice for users who like natural style curtains. It has the natural and beautiful effect of bamboo, wood, hemp and reed curtains, and can adjust the light at will. It is a new choice of household curtains.

The full shading zebra curtain is made of full shading fabric, which can achieve 100% shading effect.

Specification

item	value
Type	General Pleat
